How will the United Nations
Agenda 21 Act
affect you?

The Agenda 21 Act is the United Nation's strategy for the destruction of individual Nations, personal freedoms, and the family unit. Its endgame is the enslavement of all humanity, to become 'Global Citizens' in their World Communist Society, or New World Order, as it is more commonly known, before the end of the 21st century.

Introduction

Maurice Strong, the Secretary General of the U.N. Earth Summit of 1992, stated: “It is clear that the current life styles, and consumption patterns of the affluent middle class, involving high meat intake, consumption of large amounts of frozen and convenience foods, use of fossil fuels, ownership of motor vehicles and small electrical appliances, home and workplace air conditioning, and suburban housing, are not sustainable.” So, the Agenda 21 Act, will relieve us of all these things, and many others, all under the guise of ‘Sustainable Development’, and ‘protecting’ the Environment.

We do need to care for the world we live on, and live responsibly, as if there is going to be a tomorrow. I’m sure most people do, because, if they mess in their nest, they have to live with it, and that’s no fun. But, telling the World they have to stop eating meat, stop owning anything personally, and have no personal freedoms and privacy, or the Earth will fall over, is laughable. But we will look into all that. The Act has good intentions in such things as eliminating poverty, and adequate medical care, housing, food, and water, for all etc; but it is twenty-five years since the Agenda 21 Act was ratified, and it is clear by the policies being implemented worldwide, under the mantle of Agenda 21, that all is not good.

What seemed noble at birth, has grown into a monster, that is being used by the Criminal Elite of the world, to hasten a World Government, and the enslavement of all humanity to their yoke. We passed the beginning of the end, when the Act was ratified, and the many brave Souls who are fighting, and buying time for us all deserve our heartfelt praise, and support. It has been said, that there are two types of people in this world; those who saw what was happening, and did nothing about it, and those who never knew what happened. But we need to be a third type, and actively do something with what we know, because, once they have us all in chains, the whole World will wake-up, and realize this had nothing to do with the environment, or resources at all. But, by then it will be too late.

How will the UN's Agenda 21 Act affect you?

How will the United Nations Agenda 21 Act affect you? And by you, I mean how will it affect the average Joe on the street? We'll look into the Agenda 21 Act, and we will also refer to the Communist Manifesto of 1848, by Karl Marx, and Fredrick Engels, because that influenced much of Agenda 21. A blind man could see that.

Agenda 21 surfaced at the United Nations Earth Summit, at Rio de Janeiro in 1992. There were some amendments made to it in 2013, to tighten the controls for mammal meat processing, fish harvesting and sale; and for crop improvements through massive genetic engineering projects. It was updated to Agenda 2030, in 2015 when the U.N. decided to take a more soft-shoe approach, and tone-down some of the original language, to make the Act more palatable, after it had meagre acceptance throughout the World. But, the original Agenda 21 Document revealed the U.N.'s Global Agenda, and the updated version is only a variation on the same theme.

Agenda 21 was the brainchild of the Bruntland Commission, chaired by Gro Harlem Bruntland, an ex-P.M. from Norway, who is also a Secretary of the Socialist International. In 1962, the Congress of the Socialist International declared, 'The ultimate objective of the Parties of the Socialist International is nothing less than World Government'. And it was defined as, World Government, and World Socialism (Communism).

Those who crow about Socialism always have the highest ideals in mind, and the masses buy into it because of that. But, as Che Guevara once declared, "To establish Socialism, rivers of blood must flow." And once the Socialist process begins, there is always a lot of bloodshed, and the Socialist ideals disintegrate into a Banana Republic, with the few privileged Elite at the top of the food chain, living in luxury, and the Hoi-Polloi below living as ants. Equality always ends up meaning equal slavery, for the masses.

There are many different shades of Socialism, from the whitest Democratic Socialists, to the blackest Hard-Line Communists. Adolf Hitler's Nazi Party were Socialists, as were the Communist, Union of Soviet Socialist Republics, and Communist China. But Communism got so much bad press under such champions of it as, Josef Stalin, and, Mao Tse Tung, who murdered millions of their own people, in pursuit of its aims, that today, Communists prefer to be known by the less innocuous name of Socialist. Of course, it's exactly the same Beast, hiding under a different cloak. They are all fruits off the same tree after all, and Agenda 21's version, is of the blackest kind.

Because the Document came from an avowed Socialist, it shouldn't surprise anyone that all of its aims are Socialist. And when you read it, if you think it all sounds strangely

familiar, well, that's because it is. Lenin, Stalin, Hitler, Mao, Castro, Pol Pot, Amin, Mugabe, all the greats used variations of the same script. And, when Agenda 21 assures us that all the ills of the world are the fault of the middle-class, and private enterprise must be abolished, remember, it was fiction when Lenin and Trotsky pedalled it, and it's still fiction, when the U.N. trundles it out again, and re-labels it as Agenda 21.

The purpose of Agenda 21 is supposedly to Save the Planet, and everything upon it, from the mass extinction that will be caused by the Global-warming scam, and Humanity's over use of world Resources. But, No! Its primary purpose is to enslave everyone on earth. The U.N. is not a Democratic organization. None of us get to elect any of its Representatives, who draw outlandish Tax-free Salaries, and aren't answerable, or accountable to anyone. They have also placed themselves above all Laws, by enjoying Diplomatic Immunity anywhere they travel. Some people get to eat their cake, and have it too! And, we don't have anywhere to appeal to, if we don't agree with what they decide for us. It's a closed book. They make all the rules, and we get what we're given, and, that's very little.

New Agers, and Tree huggers, get the warm fuzzies when they hear the words, 'New World Order,' believing it will be a lush green Utopia of peace and love, with Unicorns prancing in every forest, dolphins in every swimming pool, and fairies flitting around, at the bottom of every garden. Sadly, it will be anything but a fairy-tale. Instead, it will be a time of oppression, and terror, under the Global Police State, ruled by its unelected leaders.

When Agenda 21 was tabled at Rio, 178 countries signed up to implement the Agenda 21 Act. Many of these were Third World Nations, who believed they would receive large amounts of cash to implement it, which they could then siphon off into Arms deals, or their own pockets. But, when the funds did not materialize, their support for Agenda 21 wavered, and died. Many of the Governments of the Developed Nations that had originally bought into Agenda 21, dragged their feet, or changed their minds about it, when they understood its real goals, and, after 10 years, very little of the Agenda 21 strategies had been implemented.

So, the U.N. changed tack, in order to counter the resistance that had grown up against it. And they decided to take a 'back door' approach, by using the International Council for Local Environmental Initiatives (I.C.L.E.I.), to bypass Central Governments, and go to local Councils directly, to influence them into implementing Agenda 21 initiatives; especially in those countries where Central Governments were hostile to Agenda 21. I.C.L.E.I. changed its name to Local Governments for Sustainability, after people became suspicious of the word 'International,' when it was supposedly introducing 'Local' initiatives. Agenda 21 is more than bedside reading, so, we will only

look at 12 main points of the Document.

1.

End National Sovereignty.

According to the U.N., Nationalism is the cause of wars, so they are supposedly doing this to end warfare, and usher in World peace. And, just to make sure, everyone will be disarmed, except their World Standing Army, of course. So, if anyone does rebel against them, it will be like shooting fish in a barrel. And, there will no longer be a New Zealand, or New Zealanders. There will no longer be an Australia, or Australians. We will all become Global Citizens. That's what they did in the U.S.S.R. and, everyone was called 'Comrade.' Maybe that's what they'll do with us, and we'll all have the same first name, 'Comrade.' To make the world easier to manage, they are going to break it up into ten 'Unions', and they will sub-manage these 'Unions', as Mega-regions. These regions will take parts of several former Countries, and draw them up as numbered Regions, to break up previous boundaries, so that no-one can identify with their former home Countries.

2.

State Planning and Management of all Resources, ensuring equity.

There will be the State, and the People, and the State owns and controls everything. If we jump ahead point number 4 is: Abolition of Private Property. They have to do this so that the State takes all. The State, owns and manages everything. Everything on the ground, everything above the ground, and, everything below the ground. And point number 3 tells us, there will be no private Free-enterprise. All Production, Business, and use of all Resources, whether it is Land, Building-materials, or Food production, will be State owned, or controlled. They will control all trade. You will only be allowed to purchase as much, or, as little, of what they allow you to purchase. It will be strictly monitored. No-one will be allowed to hoard anything. It will be a cashless Society, with a Central World Bank controlling all finances, and all trade. You cannot buy or sell outside of this. All Farming and Crop Production, will only be allowed in their designated Commercial Zones. No-one will be able to keep animals for private consumption.

5.

Sweden has implemented most of the Agenda 21 Strategies, and, the Laplanders in Sweden, who have roamed with their herds of Reindeer for thousands of years, are no longer allowed to slaughter animals for their own consumption. There are stringent rules governing mammal meat harvesting within Agenda 21, to curtail the hunting, and home killing of animals. They are tightening the noose on those who want to be self-sufficient.

The second reason for these controls on the killing of animals, is to do with Gun control. Since at least the 1980's, the U.N. has been calling for a total ban on the private ownership of firearms. But people won't give up their firearms, because, they want to use them legitimately, to hunt with. So, the U.N. has to ban the killing of wild animals, so no-one has a legitimate reason to own one. And if you aren't allowed to harvest wild animals, then they can say you have no reason to own firearms, and they can confiscate them from you.

Why are they doing this? Because when some Bozos representing the U.N. come to your door and tell you to vacate your home, they don't want you to point a firearm at them and say, "Make me!" They don't want you to be able to protect, or defend yourself, from being bullied by them.

Whenever there is a mass-shooting, or *supposed* shooting in the U.S., parents of a supposed victim, go on an emotional speaking tour, financed by U.N.-friendly gun control lobby groups, to parrot their usual message, that no-one needs to own a firearm, and they should all be banned.

In New Zealand, we have more people murdered with knives, than with guns. But you never hear anyone calling for knives to be banned; because, all this has nothing to do with people being murdered, and everything to do with Gun Control. To disarm the public, and put them in a position where they have to be submissive. That's their end-game. A total ban on firearms, so we can't shoot back, when they shoot at us.

No-one will be able to grow their own vegetables, under Agenda 21. If they are grown outside of the designated commercial areas zoned for it, they will be destroyed. It will be a crime to have a home garden. Some brave souls believe they will be able to 'opt-out' of the New World Order, and live off the land in the mountains, or on the sea. Sorry guys, but for a start, all water is under their control, and if you drink water from 'their' rivers, or 'their' rainwater, it will be a crime. The animals and fish are theirs. The fruit, berries, and herbs are theirs. The ground you walk on is theirs. They are doing this so you have nowhere to run, and nowhere to hide. They will hunt you down, and kill you. This is their 'ensuring equity' policy.

3.

The State to Define the Role of Business and Financial Resources.

The Cabal of Intelligence Agencies, Corporate Media, International Bankers, Multi-national Corporations, Politicians, and Religious Leaders, are going to sell us a Dictatorship, under the U.N., disguised as a Free-World, with Security and equal opportunities for all. But their plan is to carve the World up, among themselves. The whole New World Order set-up, is about Monopolies, and Greed.

The U.N. will have a Monopoly on Politics.

Corporate Media will have a Monopoly on World Media.

International Bankers will have a Monopoly on World Finances.

Multi-National Corporations will have a Monopoly on Production, Manufacturing, and Trade.

Catholicism and the World Religion will have a Monopoly on Religious Expression.

That is the New World Order in a nutshell. The U.N. is already calling for a Central World Bank, and for all taxes worldwide, to go exclusively to them. This is one of the central Tenets of Socialism, and is stated in the Communist Manifesto. 'Centralization of Credit in the hands of the State. By means of a National Bank with State Capital and an exclusive monopoly.'

The Agenda 21 Document mentions State/Private Partnerships, but, it will more likely be a Turner/Murdoch etc, partnership for Media. A Monsanto/Dow, etc, partnership for Food Production, and so on. The Document openly calls for G.M. Crops to be grown to boost food production. Of course, this means that the Corporations who own the Patents for their G.M. Crops, will be the ones doing the growing, harvesting, selling of, and profiting from, the Crops.

What this means, is that all the small players will be forced out of the game, and the big corporations will monopolize the field, with no opposition. Just what they've always wanted. There will be very little Red Meat in anyone's diet, because the U.N. has already warned us that eating Red Meat is unhealthy. Diet will be strictly monitored, like everything else, and will be mostly Vegetarian, because, as the Cults will assure you, Vegetarians are more docile, and easier to control.

4.

Abolition of Private Property.

This is very important, because, in the Communist Manifesto it is stated: 'The Theory of the Communists may be summed up in the single sentence, Abolition of Private Property.' State ownership of all land is at the heart of Socialism, and the N.W.O. When Karl Marx originally penned this, he had the best of intentions at heart. He believed the State-owned land could be worked and harvested by all, for the benefit of all. But, that's not how it worked out in practice. The State took control of the land, and the people worked it as slaves.

Abolition of Private Property, is a priority with Socialists, because, once they own the land, they own the people. When the State owns all the land, you are an *alien*, living on 'their' land by permission. You do not have any rights, except those which the State will allow you to have. You have no freedoms. When they call the tune, you dance.

Abolition of Private Property means all private property, of course, not just land. You will rent your room from the State, and all furniture etc. will be property of the State. The pushbike you ride will be 'Public Transport,' rented from the State. The State will give you the privilege of living, and using 'their' assets. This is the modern version of Feudal Society, as it was in the Middle Ages, with 'Them' as Lords of the Manor, and 'Us' as serfs. You will own nothing personally. This is also part of the Communist Manifesto, as 'Abolition of all rights of inheritance,' so no-one could own anything personally, and leave it to their children. The State takes all. The only ones who will own private property of any kind, and leave it to their posterity, will be the self-proclaimed 'Elite', who will be living off the fat of the land.

You can go to Youtube, and watch, 'The Privacyless, Freedomless, Smart City of 2030,' where Ida Auken, a Danish M.P., extols the virtues of living in Agenda 21's future, when no-one owns anything at all, and everything we use is owned by, and leased from, the State.

They are going to force everyone out of rural areas, and all of humanity will be concentrated into Mega Cities, with high-rise Stack-n-pack housing. But, more of that under point number 9, 'Creation of Mass Settlement Zones.'

5.

Restructuring the Family Unit.

In the past few decades, the Globalists have been overseeing the Restructuring of the Family Unit. The Media Giants have played the largest part in indoctrinating the general public into accepting this, as the owners of Corporate Media are all unashamedly Globalists.

The purpose of the Western Media today is not to inform the public of Current Events, as it once was. Instead, they keep the Public in the dark, while supposedly presenting them with the latest 'News.' Everything is censored by them, and what they do present is propaganda, that represents only Globalist views. They will put a total Media Blackout on anything that does not support their Manifesto, or, if it is so big that they can't ignore it, they ink out anything that is not in their interests. And they often completely fabricate 'False News,' using Crisis Actors at staged events, to sway public opinion against something they oppose.

In times past, the 'Norm' for a Family, was the Monogamous Nuclear Family, in which the father was the breadwinner, and head of the household, respected and loved by his Family. But, in the fairy-tale world of Hollywood today, the Media give the Father the role of the Village Idiot, belittled, and mocked by his children, with no authority. Globalists want the allegiance of all to their hierarchy, and the bond of a functional family is a threat to their authority. This was also explained in the Communist Manifesto, as 'Abolition of the family,' for the same reasons.

Gender equality, and the demonizing of Masculinity, are other weapons the Media seizes on to destroy the bond of the Nuclear Family, but something as God given as the Family Unit will never be dismantled at the whim of the U.N.

6.

Children to be raised by the State.

It's not surprising that this is another Tenet of Communism. Not that the State would remove the children from the parents, but the State was to take over the schooling of children, and would indoctrinate them from the cradle, to be good Socialists. Here we go again!

7.

People told what their jobs will be.

“What do you want to do when you grow up Mickey?”

“Whatever I’m told to do, Sir!”

“Good boy! Here’s a Gold Star to sew on your United Youth jacket.”

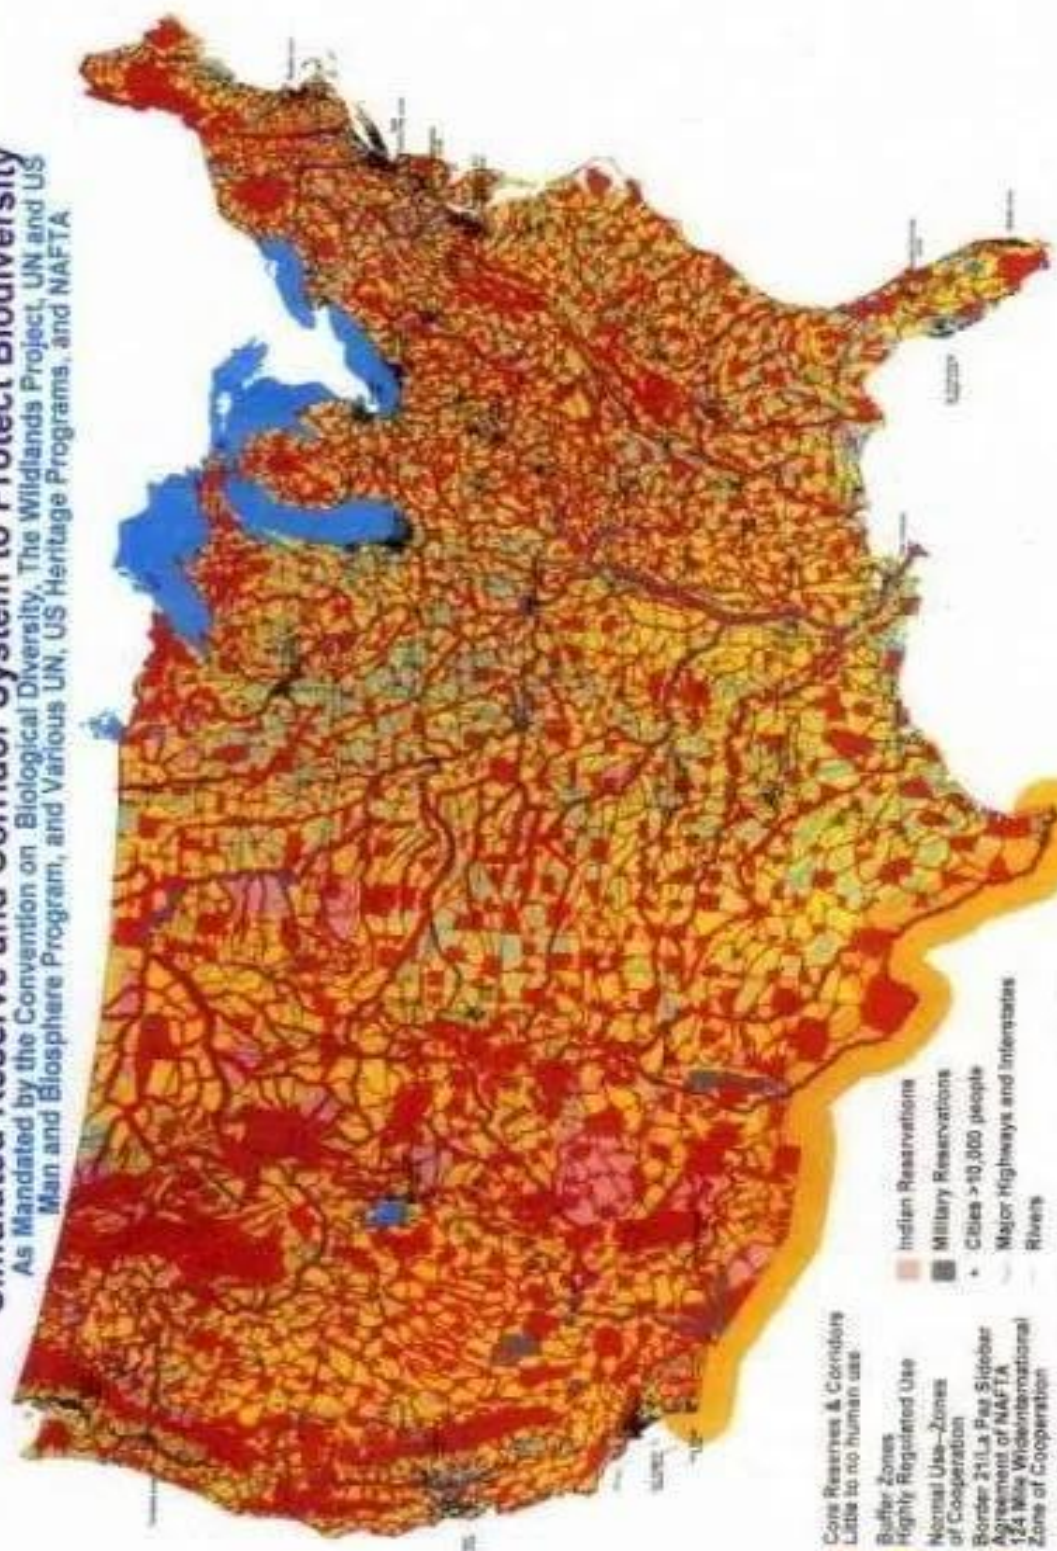

There will be the Executive U.N. Personnel, and all the other Criminal Elite, living in the lap of luxury, at the top of the pyramid, and the other 99.99999 percent of Humanity, surviving on their Universal Basic Income, at the bottom of the heap. They will all be Wards of the State, and the State will have them by the Yoyo. If anyone does not behave, their U.B.I. will be cut off. It’s all about control. You can say that again! It’s all about control.

And to the Communist Manifesto again. ‘Equal liability of all to work. Establishment of Industrial Armies, especially for agriculture.’ The Masses of the Industrial Army were not to have a career, they were to be used where they were needed most. The State would tell them what their job would be.

Now we come to points 8, 9, and 10. But, we’re going to consider them in the opposite order, because, that is the order they will be enforced in.

Simulated Reserve and Corridor System to Protect Biodiversity

As Mandated by the Convention on Biological Diversity, The Wildlands Project, UN and US
Man and Biosphere Program, and Various UN, US Heritage Programs, and NAFTA

- Core Reserves & Corridors
Little to no human use

10.

Mass resettlement as people are forced to vacate land where they live.

The U.N. is restructuring the World's Population, supposedly to lessen its Environmental Impact. The best example of what is going to happen is outlined in the map of the American Wildlands Project, seen on the previous page.

The Wildlands Project is supposedly about Habitat Protection, but the truth is, it is about forcing people out of Rural and Suburban areas, and condensing them into High-density housing, where they can be controlled. The Wildlands Project is typical of what will be enforced worldwide. Fifty percent of all land will be Classified as 'Protected,' or 'Wilderness Areas,' with no Human access to these Areas. They are the areas in red on the above map. All traces of Human activity will be erased from them, and they will forever be off limits to Humanity. Use of the remaining fifty percent of land will be highly regulated. Areas will be 'zoned' for their specific use, Vegetable Production, Milk Production, etc., and only those who are actively involved in working in one of these areas will have access to them. There will be no sightseeing tours, and the movement of individuals will be severely limited, and controlled.

9.

Creation of Mass-Settlement Zones.

The whole mass of Humanity is to be herded into Mass Settlement Zones, 'Smart-Cities,' or 'Mega-Cities,' as they will be known. This is going to be the norm Worldwide. They will be made up of High-rise, or, Stack-n-Pack apartment buildings, with a small living unit, for each person. This will be their home/cage, where they will be kept. There will be Communal Kitchens and Bathrooms, and no pedestrian lifts in the buildings, only stairs. There will be a rail link between Mega-Cities, and movement between them will be strictly controlled. These Cities are classed as Pedestrian or Walkable Cities, meaning that walking will be the common mode of transport.

In the U.S.A., it is planned that everybody will be forced into them by the year 2050, and there is no reason to believe it will be different in any other part of the World, although this does seem extremely optimistic, at best. In Southern California, the Southern California Association of Governments (S.C.A.G.), an unelected, but powerful

Metropolitan Planning Organization, is presenting Agenda 21 Initiatives to Councillors for rubber-stamping, and implementation, as compulsory Council Policy.

Climate Action Plans, call for housing and human activities to have a minimal impact on the Environment, and, all electric appliances have to meet strict new Energy Star rating requirements, imposed by Agenda 21, which most currently do not, and will need to be replaced. Insulation, double glazing, new water-use codes, and a host of other requirements entail huge costs to be borne by home owners. No-one will be exempt, and there are heavy fines for non-compliance.

So, many homeowners may decide that it is more feasible for them to sell up, and move into a Stack-n-Pack Apartment, which is built to comply with all the newly created Codes. Surveillance and Enforcement Officers go door-to-door, to inspect homes for compliance to the new Codes of practice, and Code violations. But they also note all they see in your home, especially such things as Firearms ownership, and hoarding of food, to assess your risk factor. They don't want anyone hoarding food, because, when they shut down the Banking System, they want to have a starving populace, so everyone will be forced by necessity, to accept their terms.

If they note that you have a cache of food stored, when the S. Hits the fan, they will send a squad of Goons to confiscate it. So, if you do have a food store, don't advertise it, except to friends you would trust with your life. And, do have a portable gas cooker, or something similar, to cook on, a gas lamp or torches, and a supply of batteries, and bottled water. This will buy you some time in the interim, but, beyond that, it will be in the hands of the Lord.

The reason Agenda 21 is being enforced so rigidly in Southern California, is because, it is one of the Mega-Cities of the future. Stand-alone single-family housing has been banned there, in favour of multi-family dwellings. Much Stack-n-Pack housing is being constructed, and Walkable Communities are being developed, as per Agenda 21. In the future it is planned, that all long-distance travel, and transport of goods, will be by rail only, so rail is an integral part of Community Planning.

8.

Major restrictions on movement.

This has always been a fundamental part of every Communist/Socialist country. No-one can legally travel where they want, when they want. To travel outside of an individual's home city, they must apply for a Pass, which gives the Authorities the option of saying no. Monitoring of people's movements is always strictly enforced, to control the population.

Ever since 1997, the U.N. has been calling for an end to International Air Travel, supposedly to slow the spread of Epidemics, but, more likely to fulfil Agenda 21. It does seem hypocritical however, that every time U.N. personnel travel anywhere in the world, they travel by jet aircraft? But, once the New World Order is in place, the World Government will flex its muscles, and quickly move to take control of everything, and everyone. All Citizens will be Micro-Chipped, and all of your movements will be monitored, so you will have no Personal Freedoms, or Privacy, even within your own home. Movement will be severely curtailed then.

Each of the Mega-Cities the U.N. proposes will be made up of many very small areas, known as 'Communities,' and everything needed for that Community will be within walking distance. Each Citizen will have their home there, and shopping, and all Services, will be provided there. Transport will be by pushbike, foot, or Public. Whether anyone will be able to travel outside of their Community, except to work, only the future can tell. Because everyone is Micro-chipped, and there will be Sensors and Facial recognition cameras everywhere, it will be impossible to evade the all-knowing-mind of 'Big Brother'. But Human ingenuity has always found a way to prevail, especially when freedom is at stake. And, as Plato rightly said, 'Necessity is the mother of invention,' so, I'm sure some brave soul will slip the net, and escape.

11.

Dumbing down of education.

School Curriculums over the past three decades, have become dumbed-down versions of the previous years. This is because of a statement in the Agenda 21 Act. 'Generally, more highly educated people, who have higher incomes, consume more resources than poorly educated people, who tend to have lower incomes. In this case, more Education increases the threat to sustainability.' So, people will be dumbed-down, so they will earn less, to buy less. The Globalists, and the U.N. are calling for

everyone Worldwide, to receive a Universal Basic Income. Once the World Government is in place, this will become everyone's income, and the world will move toward State owned everything, to lessen the use of Resources.

The second purpose for this dumbing- down, is because, a dumbed-down Curriculum, will produce a dumbed-down population. Globalists want to raise a generation of simpletons, easily contented with coffee, and computer games, rather than free-thinkers, who could challenge them. Children are not taught the depth of history that former generations were, or of the great achievers, and great achievements, to inspire them. Instead, they are taught about Third World Countries, Indigenous peoples, inequalities, and the environment, in the cause of extolling the 'Greater good,' over Individualism. They are programmed to censor what they think, so they will not say anything that may offend some 'Minority.' And so, they voluntarily rob themselves of their Freedom of Speech, which is a 'no-no' with Socialists.

One thing Globalists hate is the United States Constitution, because it guarantees individuals certain Freedoms and Rights above the rule of the State. The First Amendment allows people to be Libertarians. A Libertarian is defined as, 'An advocate of the doctrine of Free-will, a person who upholds the principles of individual liberty, especially those of thought and action.' (Merriam-Webster). Globalists hate anything that promotes individuality above conformity, as do Socialists. The Communist Manifesto states, 'There are besides, eternal truths such as, Freedom, Justice etc. that are common to all States of Society. But, Communism abolishes eternal truths, it abolishes all Religion, and all morality.' It abolishes Freedom, Justice, (true) Religion, and Morality, just like the N.W.O.

Those who speak out against the injustices of Agenda 21, and the Globalist schemes, are written off as Conspiracy Theorists, which is supposed to be a thought stopper, to end your consideration of the subject. Or else they're labelled as 'Loose Cannons', to make them sound dangerous. But they aren't the ones who are scheming to enslave the World. They're working to halt that.

12.

Mass Global depopulation in pursuit of all of the above.

Some argue that this is not stated specifically in the Agenda 21 Act. But it is suggested in the phrase; 'Reduce the World population to a level that will ensure Sustainable Development,' and, as Mass Depopulation is at the Core of the Globalists sinister aims, it will be done. It shows what evil minds these people have. The one thing they aren't agreed upon is the level of depopulation. Some suggest a World population of one billion, while others suggest 500 million.

'Depopulation,' means to greatly reduce a Population, and the Wildlands Project, proves it clearly. It has begun already, in a myriad of covert ways, but, once the New World Order is in place, the U.N. will commit Genocide on a massive scale, to fulfil its evil Agenda, and to create the Brave New World the Globalists are planning for themselves.

According to the Georgia Guide Stones, which are the Illuminati's Ten Commandments, the population of Earth will be lowered, and stabilized at 500 million. This means the other 7 billion of us aren't a part of their plan. They will arrest and eliminate all Dissidents, as enemies of the State, because they will never conform, and become Lemmings, like 'Good' Citizens. They will dispose of those who aren't productive, and only a drain on Resources, because, Agenda 21 gives the world a Resource-based Economy, which makes the Environment and Resources more valuable than people. So, the Homeless, and the unemployable, meaning the mentally, and physically Disabled, and the Elderly, will be disposed of. The masses of the poor in India, Africa, and central America, will be disposed of. Humans are only 'Human Resources,' to the Globalists, and, they will not support 'Couch Potatoes.' There will be no unemployment, in their utopia. If you don't work, you don't eat, or breathe. It has also been suggested that euthanasia must be compulsory at 60 years of age, for everyone, except those at the top.

Enough!

Do I believe the U.N.'s, Agenda 21 Act will be fulfilled? No. Because there is a God, and He will allow these clowns to have enough rope to hang themselves, but no more. There *will* be a New World Order, and there *will* be a World Government, and they *will* commit many atrocities, in pursuit of their goals. But, the majority of people on this earth are good people, who value individuality, Democracy, and the freedom to choose their own destiny; and, they will not go peacefully to slaughter, or slavery.

The U.N. is continually bombarding the world with its tripe, which is all theatre. When 16-year-old Greta Thunberg stood before the U.N. Climate Change Summit in 2019, she wasn't there to speak to them; she was taken there by them, to be seen by the world.

So, what can we do? Stand up for what is right, even if it makes you a target. If no-one is brave enough to say it, then no-one will hear it. Rock the boat. Challenge Agenda 21 initiatives. Warn others, and help them to prepare, by having a store of food, water, and all they consider essentials, to give them time to plan their next move. Listen to Alternative Media, instead of Corporate Media, who censor everything you read or watch, to indoctrinate you into believing we have to accept a World Government, to save us all from extinction. In 2019, many of the Worlds Media agreed to a Pact, that they would not print or say anything that denied Man-made Climate Change. What the eye doesn't see, the heart doesn't grieve for.

But, most importantly, Empires have risen, and Empires have fallen, but there is only One who is Eternal, Jesus Christ our Creator. The New World Order is only a ripple on the pond of time, that will come and go, and pass out of existence, to be forgotten. But, if you give your life wholeheartedly to Jesus Christ, to love and serve Him, you will live for Eternity, something the New World Order can never achieve. So, make the choice for yourself, after all, the Lord has given you the Freedom to choose, it's an Inalienable Right.

There is much more being added to Agenda 21, as time goes by. A total ban on the felling and use of trees, for example. All forms of life, Animals, Birds, Fish, Plants, Insects, and down to the smallest Amoeba, to have Representation, and protection, at the U.N., as part of protecting the biodiversity of life on the earth. It seems that Golf Courses, and Ski Fields, are not sustainable either, according to the Powers-that be. It is being suggested that meat consumption be banned, or restricted to a healthy 'portion,' which is recommended at 50 grams, or about half a sausage per 'serve.' Barbecue anyone?

The problem with all this is, that when the Globalists say 'We,' it never includes 'Them.' That's hypocrisy, because, if there *is* a 'problem,' they're the main part of the 'problem,' because their industries are the greatest polluters of the earth. And what's sauce for the goose, is sauce for the gander.

But, for the self-proclaimed 'Elite,' at the top, nothing will ever change. They will not be limited in what they consume, and they will not be forced to walk or cycle. They will still have their luxury Resort hideaways. And they will have achieved their life-long goal, of total domination over everyone else on earth, and all under the guise of 'Protecting' the Environment.
