

All I ever wanted was you

Words and music by Kevin Lee

C G Am Em
Standing at an empty window, looking at an empty road,
F C F G
Waiting, waiting, ever waiting, just to see you coming home.
C G Am Em
My face was streaked with tears, and my heart was filled with pain,
F C F G
Thinking I would never hear your voice, nor see your face again.
F G C
All I ever wanted was you.
